WILTON, ME., AUG. 27, 1882.

"For a number of years I have been afflicted with dyspepsia and have suffered a great deal. I commenced to take the "L. F." Atwood Bitters, and found immediate relief, and now consider myself cured. Also my sister, Mrs. S. V. Eaton, of Haverhill, Mass., was visiting me, during the same year, and found great relief from the same complaint by the use of this medicine.

But I wish to speak, more particularly, of a cure it worked quite recently. My son, a stout, rugged young man, was taken sick some three weeks ago, with a distressing pain in the head. He seemed to lose his appetite, and grow weak, losing a great deal of flesh. He consulted two physicians, and they called it catarrh, and prescribed for it, but did him no good. At last I happened to think of the True "L. F." Atwood Medicine and procured a bottle immediately. He commenced taking it, and found relief at once, and is now well.

I am convinced, beyond a doubt, that, if the people who are suffering from any derangement of the stomach or liver would try it, they would save themselves from many sick days and from large doctor's bills.

You may make such use of this statement as you see fit.

Very respectfully yours,

MRS. J. A. JONES."

PRICE, $1.50.

Entered according to Act of Congress, in the year 1884, by W. A. GREENOUGH & Co., in the office of the Librarian of Congress at Washington.

PREFACE.

In accordance with our usual custom we now present No. 10, of the regular series of the BANGOR DIRECTORY to our patrons, with the confidence of its welcome reception by them, as well as by the public generally.

We have taken the usual pains to have all information furnished made as correct and reliable as possible, and trust we have succeeded in so doing.

As places grow in importance and population, the directory increases in value as a book of reference. A good directory is a great benefit to a place, not only to the citizens, but to strangers and visitors who are constantly referring to its pages for information of some kind.

A directory of a city or town is not necessarily limited to that place, for which it is published, as we have orders from this and foreign countries for our books.

We wish especially to call the attention of persons using the directory, to the importance of knowing the precise spelling of a name before looking for it, as names pronounced the same, but spelled in various ways, will appear on different pages, and at quite a distance from each other.

Our canvass shows an increase of names over that of last year, as will be seen by the figures given below:

Names in 1884	6,909
Names in 1882	6,700
Increase over last edition, . .	209

Our agents have received the usual courteous attention from all with whom they have come in contact while obtaining the information for this number, and with many thanks for the same

We remain, very respectfully,

W. A. GREENOUGH & CO.,
Compilers, Printers, and Publishers.

Patented, July, 18, 1882.

TRAMWAYS FOR MILLS, FACTORY & GENERAL USE.

MONTREAL, Canada, June 16, 1883.

R. J. Davies, Esq.

Dear Sir—In reply to your question of how I like the refrigerator that you put up for me in this city, I would say it works to perfection, and I would cheerfully recommend any one in want of any cold storage to employ you, as they would then be sure of having something complete. In reference to your track and attachments I would say that I think them far superior to the ones in use before.

Yours very truly,

F. B. LINGHAM.

R. J. Davies. AUGUSTA, Me., August 2, 1883.

Sir—Your letter by some means was mislaid and I now hasten to reply, although it may be late for the catalogue you spoke of. Our refrigerator works first class, thermometer stands 36 to 38 degrees. Also, are well pleased with your railway and if the name of the Augusta Refrigerator Co., is any benefit to you, and I am not too late for your circular, you can use the same.

Respectfully,

AUGUSTA REFRIGERATOR CO.,

By H. Cony.

Dear Sir—

We can say in reference to the sliding shelves in our chest that we are much pleased with them, and should cheerfully recommend them to anyone cutting out butter.

Very truly,

COBB, BATES & YERXA.

R. J. Davies, Esq., 20 Creek Square. BOSTON, May 4th, 1883.

Dear Sir—The tramway erected in our building is working to our perfect satisfaction; with it we move 40 cans of milk weighing 800 lbs., the length of building 300 feet, with an expenditure of less physical strength than would be required to carry two cans by hand. It more than satisfies every demand made upon it.

Yours respectfully,

C. BRIGHAM & Co.

BAGNALL & LOUD,

Boston, Mass.

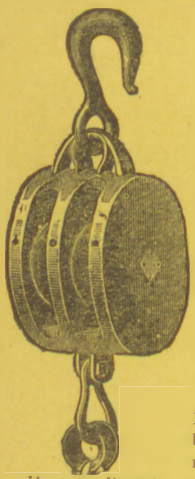

Sole Manufacturers in the United States of their Celebrated

METALLINE,

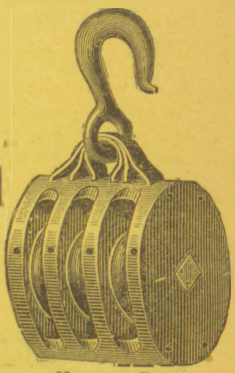

—AND—

Improved Sleeve Roller Bushed

Tackle Blocks,

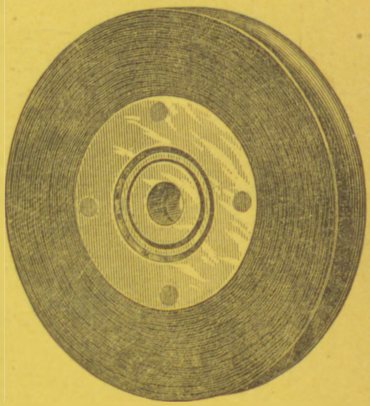

Harcourt Patent.

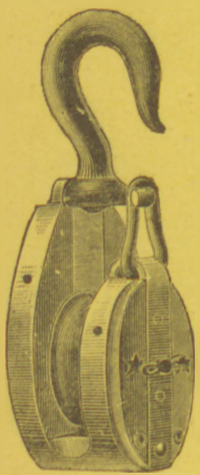

Harcourt Patent.

Our improved **SLEEVE ROLLER BUSHING** combines the strength of a Common Bushed Block, together with the purchase of a Roller Bushed Block. The sleeve turning slowly on the Pin will constantly change its bearings, thereby receiving an equal wear on every part, and has the advantage of a large surface for the rolls to run over; the actual wearing surface for the rolls to run over, being 1¼ inches in diameter, and is the largest Pin ever put in a halliard block, and will be found to be the most durable Bushing yet introduced to the public.

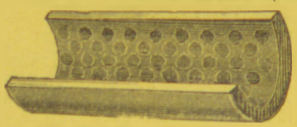

Sleeve Roller Bushed Sheaves.

New Improved Snatch Block, clasp closed.

Pat. Jan. 31, 1881.

Our Improved **Snatch Blocks** will be found to be the simplest in Construction and in every way the best Snatch Block in the market, and will unlatch by simply throwing the hook around to right angles, bringing the lip in line with the link, and is strapped both on the outside and inside, making it the strongest Snatch Block in the market, as well as the easiest to operate.

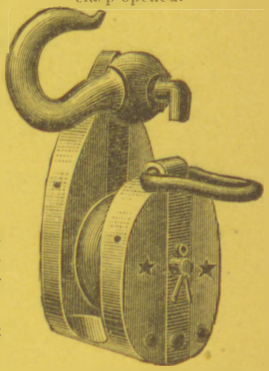

One Half Metalline Bushing.

Can be run at the quickest rate of speed without the use of any oil, being self-lubricating, and is designed for steam and heavy hoisting.

Outfits for vessels a specialty, at lowest prices.

New Improved Snatch Block, clasp opened.

Pat. Jan. 31, 1881.

Coins, jewelry, and articles subject to customs' duty, are excluded from all foreign mails.

Rates of postage to foreign countries other than as above, being subject to change each month, inquiry should be made at the stamp widow for ruling rates, before mail matter is deposited in the office.

All mail matter, except letters, must be so wrapped or enveloped that their contents may be readily and thoroughly examined by post-masters without destroying the wrappers.

STAMPED ENVELOPES.

The attention of the public is called to the advantage of using stamped envelopes rather than postage stamps. Daily numbers of letters are dropped in the post-office without prepayment, with revenue stamps, and stamps cut from stamped envelopes affixed, which are held for postage; whereas, by the use of stamped envelopes, these letters would go forward without delay. Persons purchasing stamped envelopes of any denomination, in quantities of 500 and upward, may have request to return in a specified time printed thereon, free of charge. All stamped envelopes damaged, by having been improperly addressed, will be redeemed at this office, provided the stamps thereon have not been effaced.

THE AMERICAN Iron Post and Construction Co.,

OFFICE at 31 MILK STREET, BOSTON.

Manufactures a METALLIC POST FOR WIRE FENCES, possessing many great advantages over all metal posts hitherto made, among which are the following:

It is of Iron or Steel. It is protected from Rust by an Indestructible covering.

IT IS CHEAP.

It is driven into the ground—no digging of post holes.

IT WILL NOT BURN UP.

There are needed NO NAILS OR STAPLES for attaching the wire,—only sledge, wire and posts to put up the fence.

For RAILROADS a wire fence with this post is CHEAPEST and BEST.

For FARMERS it is the CHEAPEST and BEST.

For COUNTRY ROADS IT IS THE BEST, as it affords no place for weeds in summer, or for snow-drifts in winter.

IT IS ORNAMENTAL, and the best for yards. gardens, orchards and trellises.

IT will keep out cattle and boys. Flat barbed or plain wire can be used with this post.
