A Revolution in Lighting

 IF your office, store or house is not wired you probably found some objection to electricity the last time you looked into the question. Possibly the cost of wiring deterred you, or you thought the monthly bills might be more than you could afford. Electric lighting has recently made great advances, and, if you are not using it, you ought to investigate NOW

The Tungsten Lamp removes the objections of the most exacting. It gives nearly three times as much light as former (carbon) incandescent lamps for the same current and the quality of the light is greatly superior.

Do not put off a matter of so much importance. Have your house wired this month. We will be glad to give you particulars.
