HACK AND PUBLIC CARRIAGE REGULATIONS

For distances to any part of Bangor and Brewer see the quarter mile circles on our map in this Directory, having the Custom House building, at foot of State and Hammond streets for the center.

The legal passenger fares are as given in Chapter 17, Section 7, of City Ordinances, as amended Feb. 8, 1909, as follows:

FOR HACKS AND HACKNEY COACHES.

For carrying a passenger from one place to another in Bangor and Brewer, within the territorial area of a radius of one mile from the postoffice building in Bangor, not exceeding 50 cents; and for every quarter of a mile outside of said circle an additional ten cents. For children between the ages of four and fifteen years, if accompanied by an adult, half price for each child; if unaccompanied by an adult full fare may be collected for children; for children under four years of age, accompanied by parents or an adult, no charge shall be made.

For carrying passengers to and and from the hotels and railroad depots and steamboat landings, not to exceed twenty-five cents each.

FOR PUBLIC CARRIAGES.

Not exceeding twenty-five cents for each passenger, and the same additional charges allowed for hacks, or fifty cents per hour for each passenger, when employed by the hour; between the hours of 9 P. M., regular hack rates may be charged, and when employed by the hour, 75 cents per passenger per hour may be charged: but such rates may be collected as may be mutually agreed upon between the owner or driver and the passengers between said hours. For all vehicles for carrying passengers to and from the fair grounds on days on which any public meeting or exhibition shall be held ten cents for each passenger.

Section 9 of Chapter 53. ELECTRICITY
IN THE HOME

There is no subject to which you should give more attention and real serious consideration than the illumination of your home. The proper lighting of a house adds very much to both its comfort and its appearance. Illumination has gone through many stages of development and the earliest forms of lighting, the pitch fagot, the candle, the kerosene lamp and the gas burner, bear a marked contrast to the modern electric light with its safety, cleanliness and convenience. But not alone for lighting should electricity be considered, as the uses to which it may be put in the household are practically unlimited. The modern housekeeper wants electric heat and power quite as much as anything else, electric conveniences in other words, which help so much to make housekeeping less a burden—electric flatirons, vacuum cleaners, cooking devices and washing machines all lend their aid to this end.

We have now reduced the price of electricity and adopted a method of charging especially designed to enable these household devices to be used at small expense.

If your house is not wired for electricity let us furnish you an estimate of the cost of wiring, together with the probable cost of electricity for such service as you may desire. You are under no obligations.

Write or telephone 300, Bangor, and our representative will call.
